Our Journey Begins

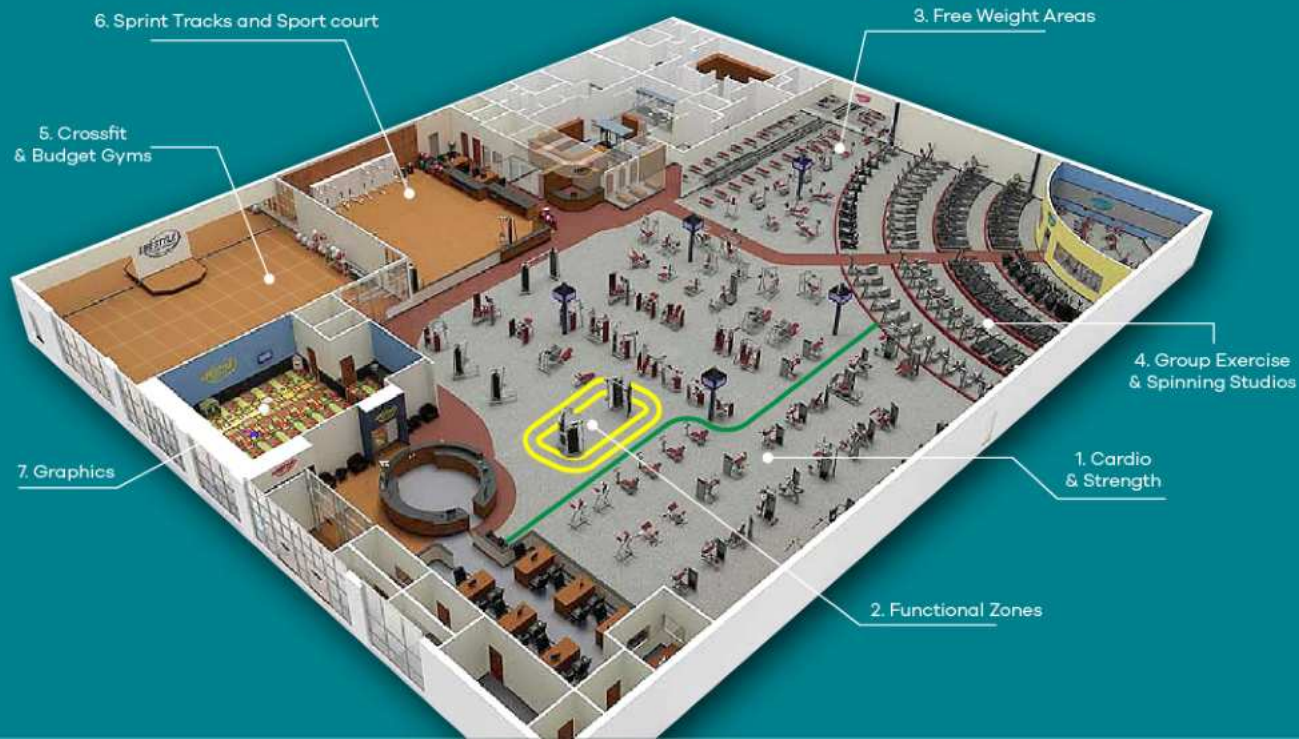

- **What is your strongest strength?**

We are gentle but not weak.

We would like to protect everyone around us to provide them better quality of living, to live safely and comfortably.

- **Floorament has developed our strength together with flexibility to every step of every lifestyle.**

Rubber is Difference

We are natural, we are safe,
we protect and we are environmental
friendly. Rubber flooring is a crucial
part of any successful gym fit out and
is often not given the necessary consideration.

Why Floorament

Exploring ideas of authenticity and appropriation, Craft and Technology experiences merge to create new interpretations of signature fitness flooring.

- Manufacturer and supplier of Craft with high performance fitness flooring and rubber surfacing products.
- 25 years of experience.
- Pride ourselves on craft quality, local material, design, service, customer relations and honesty.
- Premium local natural rubber, we are very proud to be a part of the process to help create the better quality of life for Thai Rubber Farmer.

A wide-angle photograph of a spacious Pilates studio. The room features light-colored wooden floors and a high ceiling with large skylights. Several Pilates reformer machines, made of light wood with brown upholstery, are arranged in rows. The studio is clean and well-lit, with a modern aesthetic. The text 'Our Floor Our Soul' is overlaid in large white letters on the left side of the image.

Our Floor Our Soul

Our strong intention is continued from piece to piece.

Floorament natural rubber flooring represents love and care.

We would like to share the good experience to everyone.

Over 25 years durability, we are tough and simultaneously gentle and promise that we will always take good care of everyone with our quality floor.

Quality comes first

TIS (มาตรฐาน) for rubber flooring products.

ASTM International Certification.

UL : Standard Safety Testing.

DIN : Fire classification of construction products and building elements.

BSI : British Standards Institution, the national standards body of the United Kingdom.

Rubber friendly

Floorament Tile produces from quality rubber. All that we concentrate and try our best to find the quality Rubber to produce our floors is because we determine to create Floorament as high quality product, high specification, and to be the quality product that will truly take care everyone.

- Floorament commitment is the responsibility to protect our environment. Floorament natural rubber tile is free from toxic or any hazardous.
- Rubber flooring has easily and cleaner recycled process. Rubber could be sliced or ground and it can be reused as recycled for almost 80% without any toxic which will be harmful to environment.

Cardio & Strength

Floorament Natural Rubber Flooring.

Durable, abrasive resistance, not easily teared.

Natural Rubber Floorament pass the test result from standard institute. It is durable, suitable for Cardio & Strength area which does not make any effect on the surface. Moreover, any equipment could not make any damage on the tiles.

Floorament Natural Rubber Flooring is available in rolls and square tiles.

Natural Rubber Flooring

Available in : Hammered Tone, Hammer Tone Granite, Studded

Thickness : 2.0mm. | 3.0 mm | 3.5mm

Size : Tiles 60cm x 60cm | Roll 122cm x 15m

Series : HM, HG, ST, NT

Construction : Single layer

Material : Virgin natural rubber

Safety Pass : EN71-3

Standard : TIS2377

Appearance : Smooth, dense closed face

Footfall Usage : High

Installation : Bonded

Adhesive : Dunlop GP Low Smell Adhesive | HP7

STUDDED

ST | NATURAL RUBBER FLOOR TILES

Unicolor Rubber Floor Tiles for round studded surface and has been formulated as a highly durable product. It performs well in all high traffic areas.

Rubber Roll

The Original

5 - 12mm Rubber Roll is suitable for cardio, resistance, functional, free weights and other multi purpose areas. The homogeneous construction of the flooring makes it resilient, durable and provides low step noise reduction.

- Suitable for high footfall and where products may be dropped.
- Suitable for cardio zones, dense material allows for easy kit maneuverability
- 100% recycled rubber.
- Available in many colours.

Rubber Roll Dot Matrix

FEATURES

- Shock absorption
- Impact resistance
- Sound absorption

MATERIAL COMPOSTION

- Recycle Rubber (85%)
- EPDM Granules (15%)
- bonded with PU polymer

SIZE

- 1.25m x 10m x 5.0 | 8.0 | 10mm
- (1 roll = 12.5 sq.m)

Treadmill mat

Floorment treadmill mat can be supplied in different sizes and thickness to fit you applications for spinning, treadmill, cross trainer and so on, giving good protection for you floors and allowing for differences in floor and equipment balance levels.

Features & Benefits

- Sound & shock absorbent
- Anti-fatigue
- Protection for floor and machine

Specifications

- Material: PU binder, Recycle rubber & Synthetic EPDM
- Color: Black
- ThicknessL: 4mm.
- Size: 2.2m*1m, or customized sizes

The Roll Out Ladder

The Roll Out Ladder is perfect for indoor speed and agility training. Made of heavy-duty, durable recycled rubber, it easily unrolls and lies flat, then rolls up for convenient transportation and storage.

Features & Benefits

- Durable
- Anti-slip
- Quickly unrolls and lies flat
- Portable

Specifications

- Material: PU binder, Recycle rubber & Synthetic EPDM
- Color: Mixed color
- ThicknessL: 3mm or customized
- Size: 4540m*410mm

Group Exercise & Studios

Performance Roll Soft Sport

Performance Roll Soft Sport is a heterogeneous flooring solution that consists of 3mm, 4.5mm, 6mm, 8mm and 10mm premium flooring roll as the feel good top layer and High Shock Absorption Underlay as the base layer.

Performance Roll Soft Sport

Available in : Roll

Thickness : 3mm | 4.5mm | 6mm | 8mm

Size : 1.80cm x 20m

Construction : Heterogeneous (dual layer)

EPDM Sport Roll

Designed for indoor & Outdoor recreational surfaces, series provides high traction and comfort underfoot.

Facilities that have intensive ball sports, running & training would benefit from series.

Laminated from a base layer cushion series with a dense layer of compressed EPDM Rubber, series can qualify the facility with easy installation and economic value.

Applications

- Indoor and outdoor sports courts
- Running track
- Kindergarten
- Playground

Features & Benefits

- Multi-functional applications
- Wear resistant
- Anti-slip
- Comfort underfoot

Specifications

- Material: PU binder & Synthetic EPDM
- Color: Variety of colors
- Thickness: 3~10mm
- Roll Length: 10/15/20m
- Roll Width: 1m

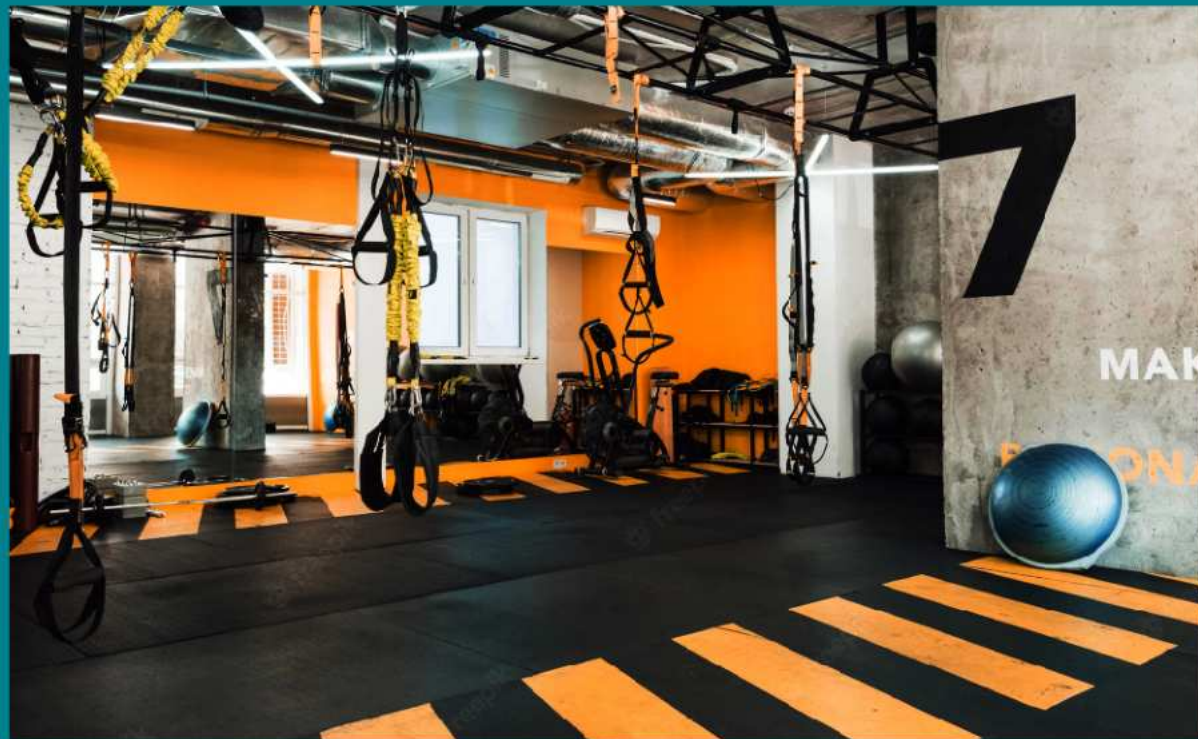

Functional Zones

Available in

Interlocking Tiles

Interlocking tiles are the perfect floor solution that is easy to install, tough and resilient enough for multiple applications. They are made of recycled tire rubber and EPDM rubber.

full layer of SBR and EPDM Rubber
size : 60cm x 60cm / 100 cm x 100cm
Thickness : 10 mm

Applications

- Gyms
- Schools
- Offices
- Retail stores
- Kindergarten
- Clubs
- Recreation centers

Features & Benefits

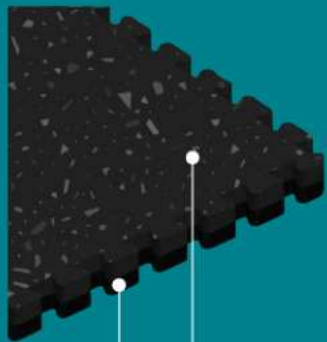

- Loose laid
- Wear resistant
- Slip resistant
- Shock absorbent
- Environmentally safety

Specifications

- Material: PU binder, Recycle tire rubber & Synthetic EPDM
- Color: Variety of colors

Laminated Interlocking

Made with a two-piece construction (a durable recycled rubber top with a foam backing for anti-fatigue purposes), Laminated Interlocking definitely enhances shock absorption and offers much better underfoot comfort. The puzzle-cut system allows for flexibility and cost savings when tiles need to be replaced due to wear.

SBR and EPDM Rubber

Super Sound absorbent base layer

Applications

- Gyms
- Offices
- Retail stores
- Kindergarten
- Workplace
- Exhibitions
- Check-out stands

Features & Benefits

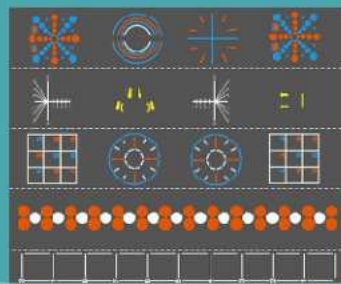

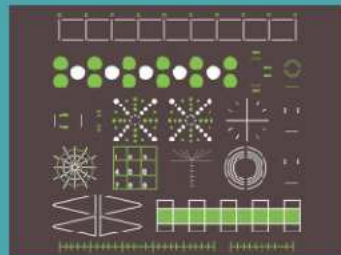

- Loose laid
- Wear resisant
- Slip resistant
- Shock absorbent
- Sound absorbent
- Anti-fatigue
- Comfortable underfoot
- Check-out stands
- Eco friendly

Specifications

- Material: PU binder, Recycle rubber & Synthetic EPDM, Foam rubber
